PROJECTS

PERSONAL WEBSITE V1

GATSBY, REACT, SASS, BOOTSTRAP

My personal portfolio website built to house my solo projects to be easily accessed and viewed online.

REACT WEATHER APPLICATION

METAWEATHER API, REACT, HTML, CSS, JS, AXIOS

A web application that uses the MetaWeather API to gather and display weather related information for a location that is entered by a user.

SIMON GAME

HTML, CSS, JS, JQUERY

A desktop version of the popular electronic memory skill game. The application creates a sequence of sounds and lights and requires to the user to repeat the sequence.

WORK EXPERIENCE

Mar, 2018 - Dec 2021

CUSTOMER ASSISTANT: STOCK CONTROL

Tesco PLC

- Provided a high standard of customer service which helped to create a positive environment and customer experience in store.
- Performed regular processes and routines that maintained store stock levels and kept waste percentages low.
- Assisted with the training of new employees and getting them up to speed with our procedures.
